Amazon

The Amazon is a new area of ministry for Allow. We have contacts in the area where Colombia, Peru and Brazil come together.

The Amazon overflows every year as rainy season begins, but this year the flooding has been worse than most of the people can remember. Even though this church is built on high pilings, the water is 3 feet deep inside. Many people are literally living on their kitchen tables. We hope to establish a child sponsorship program and pastor training program in this area.

Pastor Training

Michael and Sue Cook, Allow founders and directors, were doing pastor training, women's training and Bible conferences in various countries for years before Allow was born. This is not a new ministry, but WOW how it has grown! This fall and spring, we want to provide training for village pastors in **Nepal, Burundi, Haiti and Nicaragua.**

We need qualified men to go and teach at their own expense or funds can be raised through Allow. We also need to cover the costs of the training including materials, food and some transportation for those who come from far distances.

- * **Help send a teacher!** (cost varies by country)
- * **Help with training costs!** (about \$1500)

KMH-20 Ajit

Earthquake orphan

Ajit's father died in the earthquake. His mother was severely injured and was no longer able to care for him. Their home was completely destroyed. Ajit was accepted into one of our children's homes on the 24th of June. He needs a sponsor.

\$30/month

Sponsorship is the back bone of our ministry. Sponsors provide the operational budget for our children's homes. Sponsorship is the way we help orphans, abandoned children, pastor's children and widow's children. Now we will add children affected by the earthquake to this list.

Most of those who read this newsletter already sponsor a child with us. Please consider passing this on to someone you know who might be interested in doing what you do.

Children waiting for sponsors can be seen on our web site at

www.allowthechildren.org

Or contact us and let us know your preferences about country, age and gender and we will choose a child who needs you.

Grateful.
