

Pastor Ratna Bhattari

Pastor Ratna planted and serves a village church and faithfully evangelizes in the surrounding area. He has a wife and one child. He farms, but does not have enough land to meet the needs of his family.

We hope to find a sponsor for him, which will allow him to give his time to the ministry. He knows the language and culture. He knows how to reach the Hindu for the Lord. He can live on the same level as his people. Can you make this investment for the kingdom?

We have four pastors who need monthly sponsorship. Three are in Nepal and one is in Haiti.

\$50/month

Personal Missionary Support

The Cooks are self supported through business investments. All of our other missionary staff need personal support and travel funds.

Please consider helping any of our staff missionaries on a one-time or monthly basis. Simply note the name on your check or in the designation box on line.

Salary: Faith Support

Amazon!

The river is the way of life in the Amazon. It provides their source of food, daily labor and transportation.

We hope to help the pastors in the indigenous villages as they minister among their people. Allow The Children will help through sponsorship, pastor training and projects.

Please pray for the launch of this new work among these dear people.

Children paddle home from school

Earthquake News

Earthquake relief funds given through Allow The Children have provided emergency food, water and shelter for those affected within our own ministries and their surrounding communities as well.

Truckloads of rice, beans, cooking oil and vegetables were delivered to a mountain village where 51 houses had collapsed and the people (both Christians and Hindu) were living in the church.

Funds were used by three of our partner churches to meet the needs of their daughter ministries and the villages they serve.

We built an "earthquake safe house" for our Action Love Home. Their rented house was damaged and they were unable to return to it. Now they live in a safe house built of sheet metal.

A project to provide tin for roofs for 27 village churches has been completely funded by one donor church. *Praise the Lord!*

A new children's home to provide care and shelter for earthquake orphans is in progress. We plan to build another sheet metal building like the one for the Action Love Home.

Earthquake Relief funds are still needed.

Sponsorship Project

Sponsorship makes a huge difference in the life of a child. It may mean that she can go to school instead of out to work, even at an age as young as 8. It might mean that she can stay with her own family instead of entering a children's home. For those already in a children's home, we buy food and clothes, and pay school and medical fees through sponsorship support.

You probably already sponsor a child or children with us.

Please know that we appreciate our sponsors so much.

Can you help us find ONE more sponsor?

Can you talk to a neighbor or a relative, perhaps someone outside of the circles that we already reach?

We can send you a photo of a child who needs a sponsor and a fill-in card.

There is absolutely no obligation.

No need to explain if you do not find a sponsor.

No need to send anything back.

Please contact us to send you a photo and card.

So grateful for your help.
